

IEM SPECIAL SEMINAR

Tuesday
September 15th, 2015

Institute for
Engineering in Medicine

UNIVERSITY OF MINNESOTA
Driven to DiscoverSM

3D Printed Bionic Nanomaterials

DR. MICHAEL C. McALPINE
Associate Professor, Mechanical Engineering

FREE event, no registration required.

Refreshments will be provided.

For additional information on Dr. McAlpine's presentation please contact: scot0353@umn.edu

12:00PM - 1:00PM
Nils Hasselmo Hall
Room 4-101

The Institute for Engineering in Medicine (IEM) is pleased to announce the Seminar by Dr. Michael C. McAlpine, "3D Printed Bionic Nanomaterials." This seminar will highlight the combining of 3D printing, novel nanomaterials and living platforms to enable next-generation 3D printed bionic nanodevices.

Dr. McAlpine recently joined the University of Minnesota faculty after serving as an Assistant Professor of Mechanical and Aerospace Engineering at Princeton University from 2008 until 2015. Prior to that, he was a Postdoctoral Scholar at the California Institute of Technology from 2006 to 2008 and a National Science Foundation Graduate Research Fellow at Harvard University. Dr. McAlpine earned a B.S. in Chemistry from Brown University, an M.A. and Ph.D. in Chemistry from Harvard University and performed a Postdoctoral Fellowship in Chemistry at the California Institute of Technology.
